

EUROPEAN FEDERATION OF STATISTICIANS IN THE PHARMACEUTICAL INDUSTRY
Representing Statistical Associations in Europe

European Federation of Statisticians in the Pharmaceutical Industry (EFSPI)

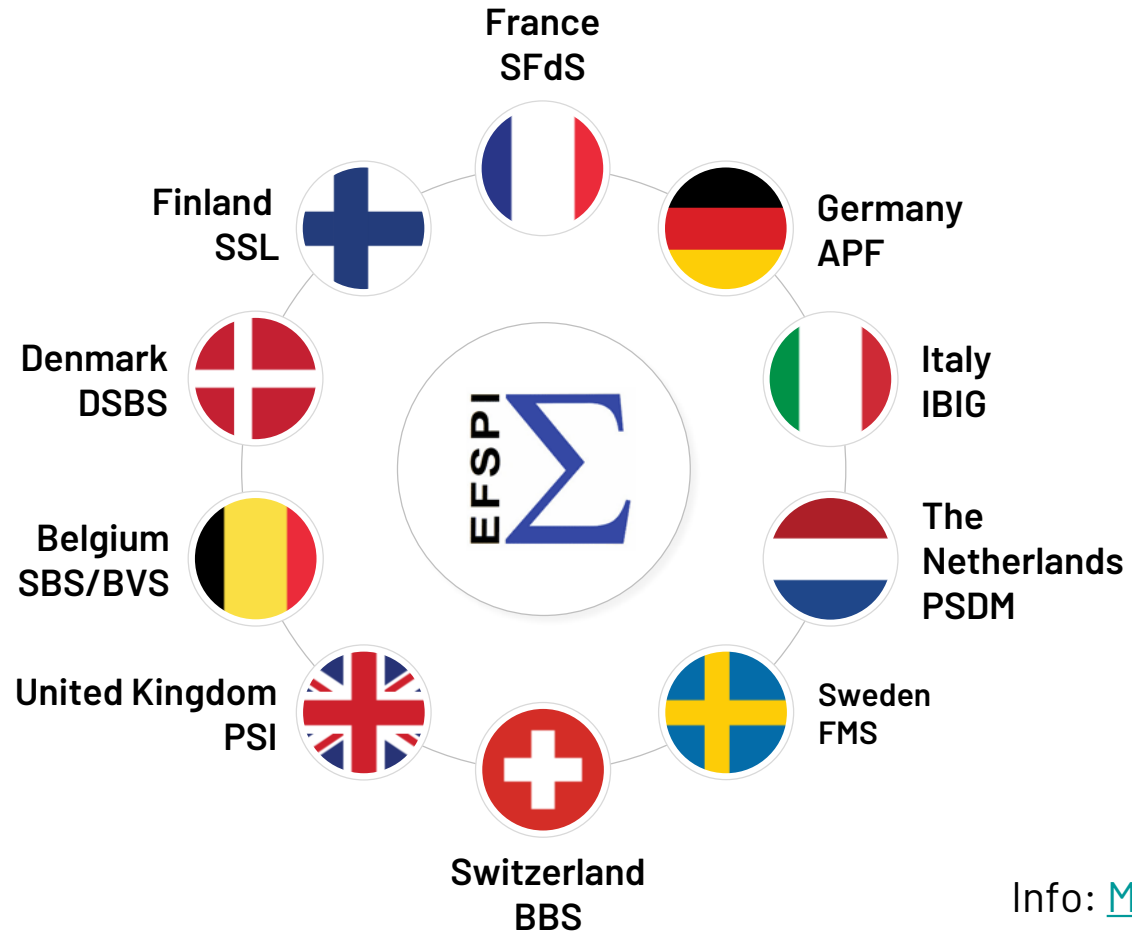

What is EFSPi?

- EFSPi = European Federation of Statisticians in the Pharmaceutical Industry
- Founded in 1992
- EFSPi is an “umbrella”, non-profit making organisation
- A federation of National European Groups
- Now 10 national groups
- No individual members
- Our national organisations collectively represent >2000 members
- Each organisation has 2 members on the EFSPi Council
- Website: www.efspi.org

EFSPI Group Members

Info: [Member Groups](#)

→ To promote professional standards of statistics and the standing of the statistical profession in the pharmaceutical industry

→ To offer a collective expert input on statistical matters to national and international authorities and organisations

→ To exchange information on and harmonise attitudes to the practice of statistics in the European Pharma Industry and within member groups

Regulatory Statistics Workshop

Each year, a small team of volunteers organises the Regulatory Statistics Workshop on behalf of EFSPi. The goal of the workshop is to bring together statisticians and partner functions from pharmaceutical industry, regulatory agencies, and academia to discuss topics of common interest.

The unique feature of the workshop is an atmosphere of collaboration and open discussion of statistical and regulatory science in general. Over the years the workshop has sharpened its profile and with regular participation of speakers from regulatory agencies such as EMA, many European regulatory agencies, FDA, PMDA, MHRA, and many more, it has become a voice in the global dialogue on regulatory statistics.

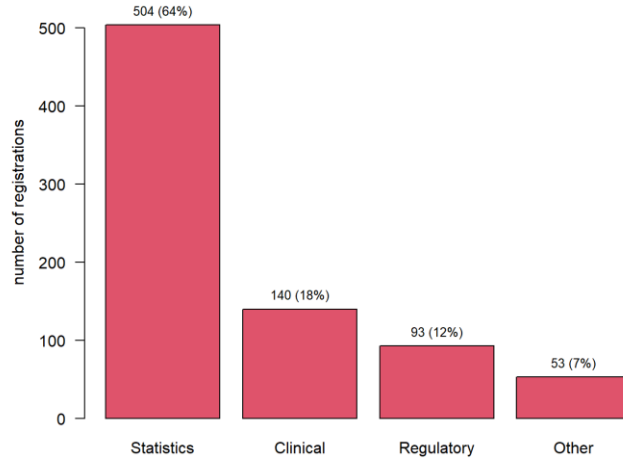

Furthermore, with HTA considerations becoming ever more important in Europe and beyond, topics pertinent to HTA are also increasingly discussed.

A warm WELCOME to the 8th workshop in Basel!!!

Some Statistics of the 8th WS

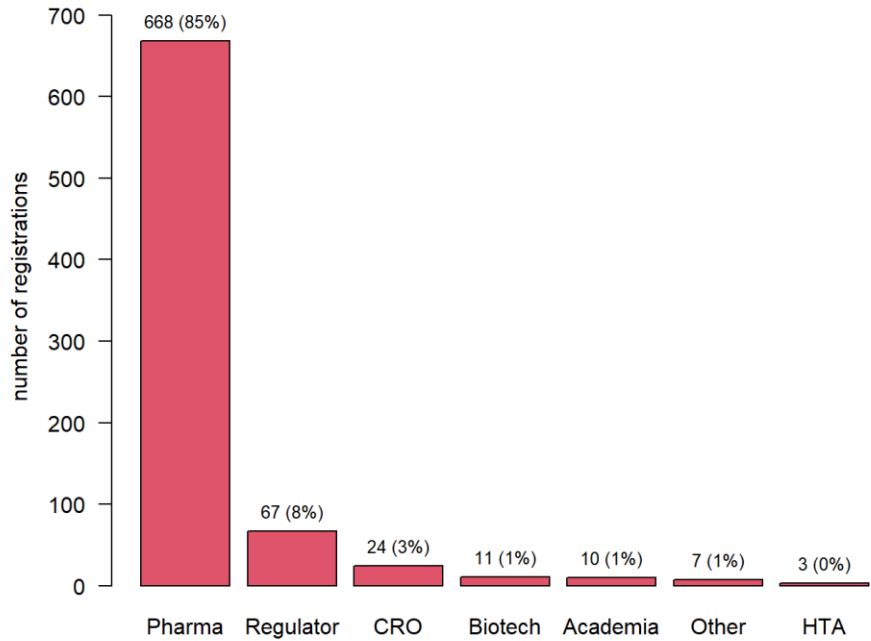

Registrations by background

Total number of registrations: 790
background

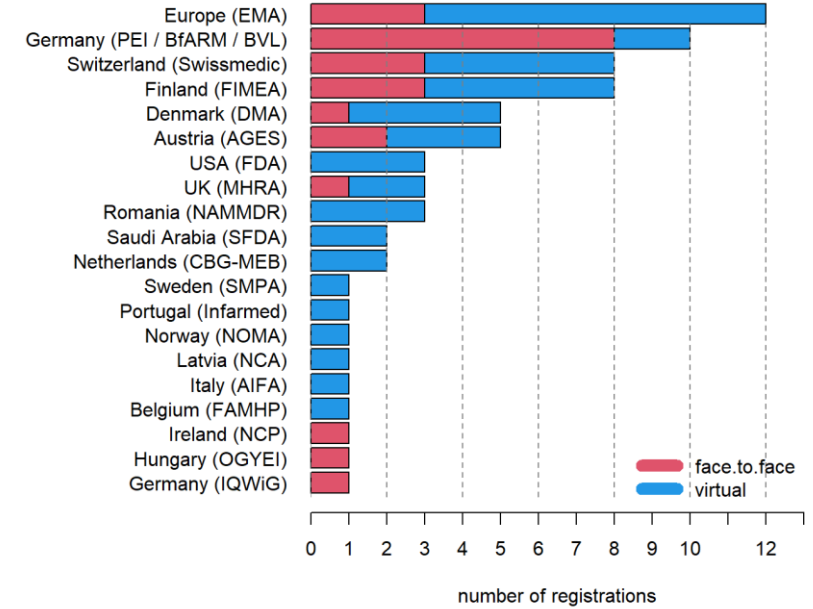

Registrations by type of institution

Total number of registrations: 790
type of institution

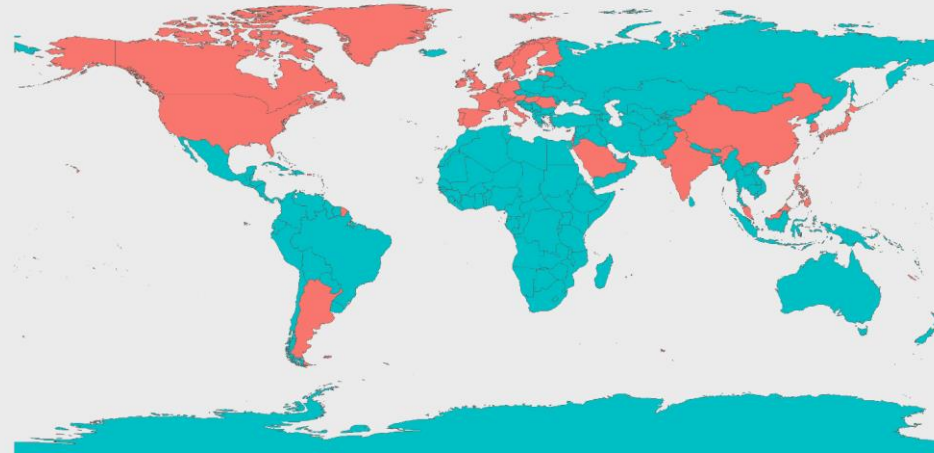

Registrations of regulatory and HTA colleagues

Total number of registrations: 70
regulatory colleagues

Broad representation
